# CRYSTAL HALO

A luxurious French antique chandelier of the 1930s served as a prototype for the Crystal halo collection. More than 44,000 different sized shiny faceted beads are manually wrapped around a steel frame. Made of crystal glass, due to the repeated reflection and refraction of light, they create the effect of internal radiance.

*The one*

# ISABELLA

Eminently buzzworthy: The series of Vanity chandeliers is defined by cubic «candleholders» that are structured around a slender central column. It has a mid-century modern design that breaks down its components into a simple, minimalist form. Cubes consisting of two translucent lampshades diffuse illumination from the bulb and create an ultra-cozy ambiance.

Recalling the glorious opulence of Baroque chandeliers with its open frame, lyre patterns and bouquet tops, Renaissance is an homage to the seventeenth-century court of King Louis XIV. Our interpretation is boldly contemporary.
